

I visited Canada for four weeks last year. I have a young Kelpie, 'Levi' and an eight-year-old cat, 'Fuss'. A friend referred me to **Poppins Pet-Sitters**. Hannah visited my home every second day to feed and pat 'Fuss' and water the plants. She took Levi to her house for the entire period of my holiday. I was very happy with the personal touch and standard of care that was provided. I felt very relaxed about leaving my brood in their care again when travelling to Egypt later in the year. I would definitely recommend **Poppins Pet-Sitters** to anyone feeling anxious about leaving their pets behind when they have to go away.
